EDUCATION

University of Waterloo — Bachelor of Mathematics, Co-op *Sep 2026 – Expected 2031*

- Presidential Entrance Scholarship
- Coursework: MATH 137 Calculus 1, MATH 135 Algebra, CS 135 Functional Programming (Racket), COMMST 223 Public Speaking, ECON 102 Macroeconomics

Jean Augustine Secondary School — Ontario Secondary School Diploma *Jun 2026*

- Top-6 average: 97% · Ontario Scholar

PROJECTS

Term Forecast — Python, LLM API *Oct 2026 – Present*

- Building an AI tool that reads course outlines and turns every assignment, quiz and exam into a term-long workload forecast, flagging crunch weeks before they hit
- Designing a heatmap calendar that weights deadlines by grade value and exports to Google and Apple Calendar; launching to UWaterloo students first, then other campuses

HealthPad — AI Health Companion *Jul 2026 – Present*

- Built an AI-powered app that helps people managing chronic conditions such as diabetes stay on top of medication, health tracking and physical activity
- Launched to 100+ users in my local gym community and iterated on their positive feedback

Indoor Navigation System — Full-Stack Web App *Sep 2025 – Jun 2026*

- Mapped my entire high school into a Street View–style virtual walkthrough used by 1,000+ students to move through hallways and find any room from the inside
- Built the front end and back end end-to-end, and proposed kiosks around the school to help new students and visitors navigate

Morse Code Translator — C++, Arduino *2024 – 2025*

- Built a hardware device that decodes button taps (dots and dashes) into letters on an LCD screen in real time, timing each press to separate dots, dashes and letter breaks
- Tested hands-on with 15+ students

LEADERSHIP & EXPERIENCE

President — Hindu Student Association, Jean Augustine SS *2025 – 2026*

- Led the planning and execution of a cultural celebration for 1,000+ community members, with dignitaries including the city's mayor in attendance
- Served as Master of Ceremonies and led the executive team through logistics, programming and volunteers

Vice President of Leadership — DECA, Jean Augustine SS *2025 – 2026*

- Grew the school's DECA chapter into a community of 100+ members and trained them in business, pitching and presentation skills for competition

Peer Tutor — Counting On You, Jean Augustine SS *2023 – 2026*

- Tutored students in grades 10–12 in math for 3 years, helping them prepare for tests and build confidence with core concepts

Community & Activities — Model UN · Chess Outreach

- Model United Nations delegate; Chess Outreach volunteer teaching the game to new players

SKILLS

Languages	Python, Racket, C++ (Arduino)
Technical	AI-Assisted Development, Full-Stack Web Development, Hardware Prototyping, Statistics, Data Analysis
Other	Public Speaking, Pitching, Product Design, Project Management, Event Planning
